DETAILED ACTION

Response to Amendment

1. The reply filed November 17, 2003 is acknowledged.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Election/Restrictions

3. Claims 17-33 remain withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected Invention and Species, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 10.

Claim Rejections - 35 USC § 102

4. Claims 14-16 are rejected under 35 U.S.C. 102(b) as being anticipated by Wildeson et al. (5,775,600).

Wildeson et al. discloses a fuel injector comprising: a valve needle 50; a fixed valve seat surface 56; a valve-closure member 52; a connecting piece 60 having a notch 102; a valve housing 42.

Response to Arguments

5. Applicant's arguments filed November 17, 2003 have been fully considered but they are not persuasive.

Applicant argues that Wildeson does not teach a crimped connection. Claim 14 recites

...the valve housing being joined to the connecting piece by
a crimped connection, wherein:

the connecting piece includes at least one notch, and
the valve housing, under an axial stress, is crimped
into at least one notch.

Any process of crimping that may be implied by the recitation "crimped connection" and "is crimped" renders the claim a product by process claim. MPEP 2113. Even if the process of crimping is a positively recited limitation, Wildeson teaches, in column 7, lines 40-50, "...to radially pull in the valve body shell 42A onto the diameter 116 of the valve body as shrinkage occurs."

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 3752

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
